6.1.1 - The governance of the institution is reflective of and in tune with the vision and mission of the institution

Vision: We strongly believe in moulding students into ideal, responsible, and productive citizens dedicated to Nation. While imparting need-based education, we enrich core values like nationality, honesty, quality, rule-following and cleanliness. The same, we cherish through our aims and objectives.

Mission: The establishment and function of the college are aimed at achieving national goals. This is not a mere act of social service, but rather a task dedicated to national duty. We believe that proper education can develop cultured, intellectual, self-reliant students committed to the nation. Keeping students at the focal point, the institute chalks out its policies. The institution has a firm belief that students have tremendous potential. If it is channelized in the right direction, we can find solutions to many problems. Let us join in our humble endeavour of drawing our Godly students into the national stream to take India to the highest pinnacle of glory in the world.

To achieve the vision, the college has a variety of courses/subjects that enable the students to choose the course of their choice. The course contents are being taught effectively by the teachers to educate and train the students to achieve good grades and outshine in their respective fields. The vision focuses on achieving excellence and promoting ethical and moral values for the well-being of society. To achieve this vision, the management has designed the following mechanism:

1. The management of the college spells out the goals of the college in qualitative and quantified statements.
2. These goals are discussed in CDC and IQAC meetings by the management to have the right understanding of various aspects.
3. The principal and Heads of the Departments are involved in the discussions for the development of short-term and long-term plans to ensure the attainment of goals.
4. A participative culture for the fulfilment of mission and vision is thus practised.
